

Ping HD is a full Service, end-to-end digital media provider. We work with our clients in multiple industries to develop, activate and manage digital signage networks that are both flexible and cost effective.

Capabilities

We develop, install, maintain and manage on site digital networks including menu boards, way finding, digital signage, mobile application integration and interactive kiosk touch-screen systems.

What we do

We strategically engineer digital solutions across multiple industry segments that will increase sales, accelerate transactions, engage customers and enhance their brand experience.

Our experience

Since 2007, Ping HD has been activating, managing and installing digital systems at locations like, AT&T Park (SF Giants), Coors Field (Colorado Rockies), Baltimore, Savannah and Atlantic City Convention Centers, Blue Lemon Restaurants...and more.

How we work

Ping HD delivers a customized solution that is unique to the metrics of success defined by each customer. From digital branding strategy, hardware, software, content design, network management and install, we are there with you every step of the way to insure you have the most flexible system possible and one that delivers results.
